Senior Educational Technology Advisor

Description

Global Language Center (GLC) is a Woman Owned small business providing a wide array of professional services to the US Government and commercial clients worldwide. Founded in 1996, GLC has grown because of our superb performance, care of employees, and in-depth language expertise. We offer several services customized to our clients' organizational or individual needs.

GLC is currently accepting resumes for a Senior Educational Advisor Specialist position to work on a government contract.

Senior Educational Technology Advisor

Required Professional/Educational Experience & Corresponding Duties:

1. Minimum of 8 years of experience integrating educational technologies into training curricula, plus MS/MA (or higher) in relevant field, with proven ability to integrate a wide variety of educational technologies into the design and delivery of training at the course, curriculum, division, school, and institutional level.
2. Demonstrated, significant experience designing and using a variety of appropriate educational technologies in Curriculum Development and/or Instructional Design for multiple training contexts, to include foreign affairs, tradecraft, foreign language, and applications/IT systems training.
3. Demonstrated experience successfully collaborating with trainers to advise, support and assist staff in FSI schools in the development of technology-enhanced curriculum and activities; to evaluate needs and the uses of specific technologies (both hardware and software); to provide consultation and training on technologies, and to promote the use of a wide range of technologies across the organization.
4. Demonstrated expertise creating lesson plans, learning objectives, curriculum design, and instructional design that integrate educational technology.
5. Experience with teaching and developing curriculum for blended and continuous learning (live and virtual classrooms);
6. Knowledge and experience with a range of educational technologies for virtual training delivery, to include designing and conducting webinars and virtual instructor-led training);
7. Experience resolving the instructional challenges of synchronous and asynchronous virtual classes;
8. Proven ability to research, identify and implement innovative methods and techniques to assess educational technology needs as innovative practices and technologies evolve.
9. Demonstrated experience providing one-on-one and/or small group train-the-trainer instruction, coaching and support;
10. Knowledge of Technology Adoption and/or Socialization Practices;
11. Experience providing hands-on support for instructors learning new educational technology for integration into their curricula;
12. Knowledge of evaluation design and data analysis to measure the effect of
